1.4. NGI Zero Commons Fund - Reclaim the public nature of the internet

Izdajatelj:	Next Generation Internet consortium partnership	
Status: aktiven	Datum objave: 1.6.2024	Rok prijave: • 01. 10. 2024 12:00 CEST (noon)
Vir objave:	https://nlnet.nl/commonsfund/	
Kratek opisa predmeta razpisa:	<p>NGI Zero Commons Fund</p> <p>The goal of this new fund is to help deliver, mature and scale new internet commons across the whole technology spectrum, from libre silicon to middleware, from P2P infrastructure to convenient end user applications. We have a holistic, full-stack approach, simply because there is no other way. If we want to reclaim the public nature of the internet and yield the full benefits from technology as a society, we need to have full coverage — period.</p> <p>Only though enough critical mass of shared building blocks and collective resources will our governments, businesses and civil society be able to count on digital security and long term operational availability. The same approach that empowers individuals to take full control of their digital lives, will also steer towards more fair, innovative economies and societies. So let's make it happen!</p>	
Višina razpoložljivih sredstev:	Between now and 2027 we will award an unprecedented 21.6 million euro in small to medium-size R&D grants towards solutions that bring the next generation of the internet closer.	
Maksimalna višina sofinanciranja:	We are seeking project proposals between 5.000 and 50.000 euro's — with the possibility to scale them up significantly if there is proven potential.	
Ciljne skupine oz. potencialni upravičenci:	Given equal proposals, inhabitants of the EU and countries associated to Horizon Europe are given priority. However if the project is of exceptional quality and the proposer holds unique technical expertise proposals from outside of those geographic areas can be eligible as well — under the condition that there is a clear European dimension.	

1.5. NGI Zero Core - Moving the internet forward

Izdajatelj:	Next Generation Internet consortium partnership	
Status: aktiven	Datum objave: 1.6.2024	Rok prijave: • 01. 10. 2024 12:00 CEST (noon)
Vir objave:	https://nlnet.nl/core/	
Kratek opis predmeta razpisa:	<p>We want a more resilient, trustworthy and open internet. We want to empower end-users. Given the speed at which the 'twin transition' is taking place, we need a greener internet and more sustainable services sooner rather than later. Neither will happen at global scale without protocol evolution, which — as the case of three decades of IPv6 introduction demonstrates — is extremely challenging. NGIO Core is designed to push beyond the status quo and create a virtuous cycle of innovation through free and open source software, libre hardware and open standards. If we want everyone to use and benefit from the internet to its full potential without holding back, the internet must be built on strong and transparent technologies that allow for permissionless innovation and are equally accessible to all.</p> <p>We work towards better technologies to restore and maintain European sovereignty and to secure democratic ownership of the digital society. NGI Zero actively works towards digital commons and trustworthy technological building blocks for the next generation of the internet. The goal is to help set the course of the evolution of technology, provide people with concrete new tools and more reliable infrastructure, which provides better overall security and allow them more agency and choice.</p>	
Višina razpoložljivih sredstev:	This is why between now and 2026 we will award 8.8 million euro in small to medium-size R&D grants towards solutions that bring the next generation of the internet closer.	
Maksimalna višina sofinanciranja:	We are seeking project proposals between 5.000 and 50.000 euro's — with the possibility to scale them up if there is proven potential. Reliability, confidentiality, integrity, security, and resource efficiency should be the 'new normal' of the internet, something ordinary users should not have to worry about — users should be in control.	
Ciljne skupine oz. potencialni upravičenci:	Given equal proposals, inhabitants of the EU and countries associated to Horizon Europe are given priority. However if the project is of exceptional quality and the proposer holds unique technical expertise proposals from outside of those geographic areas can be eligible as well — under the condition that there is a clear European dimension.

1.9. Call for proposals for ERC Synergy Grant (ERC-2025-SyG)

Izdajatelj:	European research council	
Status: aktiven	Datum objave: 11.7.2024	Rok prijave: • 06. 11. 2024 17:00:00 Brussels time
Vir objave:	https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/erc-2025-syg?isExactMatch=true&status=31094502&order=DESC&pageNumber=1&pageSize=50&sortBy=startDate	
Kratek opis predmeta razpisa:	<p>The aim is to provide support for a small group of two to four Principal Investigators to jointly address ambitious research problems that could not be addressed by the individual Principal Investigators and their teams working alone. Synergy projects should enable substantial advances at the frontiers of knowledge, stemming, for example, from the cross-fertilization of scientific fields, from new productive lines of enquiry, or new methods and techniques, including unconventional approaches and investigations at the interface between established disciplines. The transformative research funded by Synergy Grants should have the potential of becoming a benchmark on a global scale.</p> <p>Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal. Principal Investigators must also demonstrate that their group can successfully bring together the scientific elements necessary to address the scope and complexity of the proposed research question.</p> <p>One of the Principal Investigators must be designated as the Corresponding Principal Investigator. At any one time, one Principal Investigator per Synergy Grant Group except the Corresponding one can be hosted or engaged by an institution outside of the EU or Associated Countries.</p>	
Višina razpoložljivih sredstev:	500.000.000 EUR	
Maksimalna višina sofinanciranja:	<p>Synergy Grants may be awarded up to a maximum of EUR 10.000.000 for a period of 6 years. The maximum award is reduced pro rata temporis for projects of a shorter duration. This does not apply to ongoing projects.</p> <p>An additional up to EUR 4.000.000 in total can be requested in the proposal to cover (a) eligible 'start-up' costs for Principal Investigators moving to the EU or an Associated Country from elsewhere as a consequence of receiving the ERC grant and/or (b) the purchase of major equipment and/or (c) access to large facilities and/or (d) other major experimental and field work costs, excluding personnel costs. As any additional funding is to cover major one-off costs it is not subject to pro rata temporis reduction for projects of shorter duration. All funding requested is assessed during evaluation.</p>	
Ciljne skupine oz. potencialni upravičenci:	ERC grants are open to researchers of any nationality who intend to conduct their research activity in any EU Member State or AC18. At any one time, one Principal Investigator per Synergy Grant Group, except the Corresponding PI, may be hosted and engaged by an institution outside of the EU or Associated Countries ¹⁹ or an international organisation. Up to four Host institutions could engage Principal Investigator(s).

Kratek opis predmeta razpisa:	<p>The objectives of this project are to:</p> <ul style="list-style-type: none"> • promote community integration of children and young people affected by humanitarian crisis such as war in the hosting communities; • improve mental well-being and help overcoming trauma of such children and young people through sport; • facilitate adaptation and create bonds with the hosting communities; • inspire other sport clubs to set up support programmes by publishing and promoting experiences and good practices. <p>Themes and priorities (scope):</p> <p>This pilot project will focus on encouraging community integration of children and youth affected by humanitarian crisis and mass migration processes in the context of war. By improving their mental well-being by attending sport sessions, these individuals will eventually become ready to adjust to their new environment. Sport activities, with their power of bringing people together, will help interaction with the host community; facilitate integration into the education system and the labour market.</p> <p>To achieve the best results those activities should be organised at the local, grassroots level, mainly through grassroots sports clubs, involving only one country, as it is easier to respond to integration needs by implementing activities at the local level.</p>	
Višina razpoložljivih sredstev:	1.920.000 EUR	
Maksimalna višina sofinanciranja:	Do max 400.000 EUR. The maximum grant amount cannot exceed 80% of the total budget of the project.
