1.6 Information measures relating to the Common Agricultural Policy (IMCAP)

Izdajatelj:	European Commission	
Status: aktiven	Datum objave: 30.10.2019	Rok prijave: • 21. 1. 2020
	https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/infome-01-2020;freeTextSearchKeyword=:typeCodes=0,1;statusCodes=31094502;programCode=null;programDivisionCode=null;focusAreaCode=null;crossCuttingPriorityCode=null;callCode=Default;sortQuery=openingDate;orderBy=desc;onlyTenders=false;topicListKey=topicSearchTablePageState	
Kratek opis predmeta razpisa:	<p>The general objective of the call is to build trust within the EU and among all citizens, farmers and non-farmers alike. The common agricultural policy (CAP), is a policy for all the citizens of the EU and the benefits that it provides to them must be clearly demonstrated.</p> <p>The focus should be on addressing misperceptions and disinformation about European agriculture and the CAP using facts and backed up with data with a view to raising public awareness on the relevance of EU support to agriculture and rural development through the CAP.</p> <p>Themes</p> <p>The proposals for information measures shall illustrate how the CAP should continue contributing towards the delivery of the Commission's political priorities.</p> <p>The Common Agricultural Policy is one of the EU's most important policies. It is a partnership between agriculture and society and between Europe and its farmers. It is a common policy for all the countries of the EU. The CAP has a number of aims such as supporting farmers and improving agricultural production, maintaining rural areas and landscapes, keeping the rural economy alive and helping tackle climate change and the sustainable management of natural resources.</p> <p>Having regard to those aims and, particularly, to the ever-increasing focus on the sustainability of agriculture, the proposals for information measures should address specifically this topic focusing on the economic, environmental and social dimensions of the Common Agricultural Policy.</p>	
Višina razpoložljivih sredstev:	4.000.000 EUR	
Maksimalna višina sofinanciranja:	Project budgets are expected to range between 75.000 and 500.000 EUR.	
Ciljne skupine oz. potencialni upravičenci:	<p>The actions supported under this call are mono-beneficiary actions. This means that there is one legal entity applying for a grant.</p> <p>The applicants must be legal entities established in an EU Member State (including overseas countries and territories (OCTs)).</p> <p>The target public for the themes is the general public (in particular young people in urban areas) and/or farmers and other parties active in rural areas. The focus of information on the CAP would put greater emphasis on addressing the (mis-) perceptions of European agriculture, the role of farming in society and the need for greater understanding of the enormous contribution the EU agri-food sector provides to the wider EU economy.</p> <p>More specifically:</p> <ul style="list-style-type: none"> • For school children, teachers and university students: novel approaches should be used to engage with young people and raise their awareness of the CAP and the contribution that it makes in many areas such as the climate change challenge, food, healthy and high quality eating as a lifestyle choice, in relation also with the EU School Scheme for Milk, Fruit and Vegetables and Tartu Call. • For stakeholders: it should be ensured that there is greater awareness of the contribution that the CAP makes to the support of sustainability of agriculture.

Kratek opisa predmeta razpisa:	<p>The objective of the call for proposals is to contribute to the development of a social finance market, by designing and launching financial instruments for social enterprises and, at the same time, generating effective demand for social finance among social enterprises by developing their “investment readiness”. Ultimately this should enable more social enterprises to take on repayable finance for developing and scaling up their business model. In this way the call aims at feeding the pipeline for the EU level financial instruments such as the EaSI Guarantee, the EaSI Capacity Building investments, the EFSI social impact investment instruments, as well as future EU level instruments for social entrepreneurship which will be launched under the InvestEU Fund.</p> <p>The call also encourages learning from different models and good practice in developing and enhancing social finance across the Union, through organized sharing and disseminating of expertise and experience.</p> <p>In order to achieve these objectives, the Commission will set up a learning network of the grant beneficiaries and facilitate peer learning and transnational exchanges. It will also assist projects in using EU financial instruments. (see section 16.1 for more details)</p> <p>In order to take into account the different stages of development of social finance markets as well as different stages in the preparation of financing instruments for social enterprises, the call offers two strands. Each strand addresses a specific configuration of barriers in the social finance market. Both strands aim to develop and connect the supply side of social finance (by establishing partnerships, financial instruments or financial intermediaries) and the demand side (by enabling the delivery of business development and investment readiness services for social enterprises).</p> <ul style="list-style-type: none"> • Strand A: Establishment of social finance partnerships • Strand B: Establishment of social finance instruments and mechanisms

Kratek opisa predmeta razpisa:	<p>Objective: The RISE scheme promotes international and cross-sector collaboration through exchanging research and innovation staff, and sharing knowledge and ideas from research to market (and vice-versa). The scheme fosters a shared culture of research and innovation that welcomes and rewards creativity and entrepreneurship and helps to turn creative ideas into innovative products, services or processes.</p> <p>Scope: RISE involves organisations from the academic and non-academic sectors (in particular SMEs), based in Europe (EU Member States and Horizon 2020 Associated Countries) and outside Europe (third countries). Support is provided for the development of partnerships in the form of a joint research and innovation project. This is aimed at knowledge sharing via international as well as intersectoral mobility, based on secondments of research and innovation staff (exchanges) with an in-built return mechanism. The organisations constituting the partnership contribute directly to the implementation of a joint research and innovation project by seconding and/or hosting eligible staff members. Secondments shall always take place between legal entities independent from each other[1]. RISE should exploit complementary competences of the participating organisations, as well as other synergies, and enable networking activities, organisation of workshops and conferences to facilitate sharing of knowledge, new skills acquisition and career development for research and innovation staff members. RISE proposals can focus either on one dimension of mobility (intersectoral / international), or include a combination of both. Exchanges can be for both early-stage and experienced researchers and can also include administrative, managerial and technical staff directly involved in the research and innovation activities of the proposal. Support for the exchanges between institutions within Europe (EU Member States and Horizon 2020 Associated Countries) covers only intersectoral secondments. Exchanges with institutions from and to third countries can be intersectoral as well as within the same sector.</p>

Kratek opis predmeta razpisa:	<p>The ERA-NET Cofund Urban Accessibility and Connectivity (ENUAC) call for proposals aims at creating and testing new solutions and approaches for sustainable urban mobility. With this shared ambition, 16 countries are pooling resources to implement a series of calls for research and innovation projects as well as accompanying measures to create highest impact. The joint calls and actions will focus on measures to improve urban accessibility and connectivity for all groups of society while moving towards more sustainable urban mobility systems.</p> <p>Projects within this call are expected to be co-creative and have strong stakeholder participation already from the start. The research should be based on actual urban challenges and the results should lead to new approaches, tools, instruments, insights and knowledge that will bring stakeholders closer to sustainable urban accessibility and connectivity. The project results are expected to make a clear contribution to the realisation of relevant urban, regional, national and European transport policy objectives that can help cities, urban residents, communities, businesses and institutions make the most use of new developments in urban mobility.</p>

Kratek opis predmeta razpisa:	<p>This measure aims at supporting projects promoted by transnational partnerships and networks directly involving citizens. Those projects gather citizens from different horizons, in activities directly linked to Union policies, with a view to give them an opportunity to actively participate in the Union policy-making process in areas related to the objectives of the Programme. As a reminder, this can be achieved at all stages, and with all institutional interlocutors, and includes notably: agenda-setting activities, advocating during the preparation phase and negotiation of policy proposals, providing feed-back on relevant initiatives that are implemented. To that end, those projects will invite citizens to act together or debate on the multiannual priority themes of the Programme at local and European level.</p> <p>The project should consist in stimulating and organising reflection, debates or other activities related to the multiannual priority themes of the Programme and propose practical solutions that can be found through cooperation or coordination at European level, and ensure a concrete link with the policy making process indicated above. Projects should actively involve a large number of citizens in the implementation and aim at setting the basis for, or encouraging the development of, long-lasting networking between many organisations active in the field.</p> <p>This measure supports projects implemented by transnational partnerships promoting opportunities for solidarity, societal engagement and volunteering at Union level.</p> <p>A Civil Society Project must include at least two of the following types of activities:</p> <ul style="list-style-type: none"> Promotion of societal engagement and solidarity: activities promoting debate/campaigns/actions on themes of common interest in the framework of the rights and responsibilities of the Union citizens and making the link to the European political agenda and policy making process. Kratek opis predmeta razpisa:	<p>Municipalities and associations working together on a common theme in a long-term perspective may wish to develop networks of towns to make their cooperation more sustainable. Networking between municipalities on issues of common interest appears to be an important means for enabling the exchange of good practices.</p> <p>Twinning is a strong link that binds municipalities; therefore, the potential of the networks created by a series of town twinning links should be used for developing thematic and long-lasting cooperation between towns. The European Commission supports the development of such networks, which are important for ensuring structured, intense and multifaceted cooperation, therefore contributing to maximising the impact of the Programme.</p> <p>Networks of Towns are expected to:</p> <ul style="list-style-type: none"> • Integrate a range of activities around the subject(s) of common interest to be addressed in the context of the Programme's objectives or multiannual priorities; • Have defined target groups for which the selected themes are particularly relevant and involve community members active in the subject area (i.e. experts, local associations, citizens and citizens' groups directly affected by the theme, etc.); • Mobilise citizens across the Europe: a project should involve a minimum of 30% of invited participants. "Invited participants" are international participants sent by the eligible partners. At least 30% of the projects' participants travel from eligible Programme countries to the country/ies hosting Networks of Towns events. It is possible to have participants to events from countries other than those where project partners are established, provided that they come from eligible countries within the framework of the Europe for Citizens Programme. • Serve as a basis for future initiatives and actions between the towns involved, on the issues addressed or possibly on further issues of common interest.

Kratek opisa predmeta razpisa:	<p>The European Union is built on fundamental values such as freedom, democracy and respect for human rights. In order to fully appreciate their meaning, it is necessary to keep the memories of the past alive as a means of moving beyond the past and building the future.</p> <p>Under this strand projects of the following types may be supported:</p> <p>This Strand will support activities that invite to reflection on European cultural diversity and on common values in the broadest sense. In this context, it aims to finance projects reflecting on causes and consequences of authoritarian and totalitarian regimes in Europe's modern history (especially but not exclusively Nazism that led to the Holocaust, Fascism, Stalinism and totalitarian communist regimes) and to commemorate the victims of their crimes.</p> <p>The Strand also encompasses activities concerning other defining moments and reference points in recent European history. In particular, it will give preference to actions which encourage tolerance, mutual understanding, intercultural dialogue and reconciliation as a means of moving beyond the past and building the future, in particular with a view to reaching the younger generation.</p> <p>Moreover, projects should be implemented on a transnational level (creation and operation of transnational partnerships and networks) or with a clear European dimension.</p>
