Kratek opis predmeta razpisa:	<p>Expected Impact: The expected impact is an increase of the participation and the quality of the proposals submitted under the LIFE calls by applicants from the Member State or associated country. The impact in terms of higher participation or better scoring of proposals should, as far as possible, be estimated.</p> <p>Objective: In line with article 11(4) of the LIFE Regulation (EU) 2021/783, technical assistance projects for capacity building aim at supporting national level public bodies responsible for the implementation of the LIFE Programme in improving the participation and increasing the quality of submitted proposals from Member States and countries associated to the LIFE Programme.</p> <p>Activities that can be funded Activities financed under this call will improve the capacity of the Member State, in supporting the participation of possible applicants in the LIFE programme calls, thus improving the number and the quality of the submitted proposals. Each proposal should preferably include analysis of the participation from that country and the success rate in the last calls. The analysis should include also the potential and current type of organisations that benefit from the call and why some organisations are more applying then others. Based on this needs assessment the applicants should identify the most effective activities addressing the participation and/or the ineffective participation rate of different types of applicants (public organisations, private entities and civil society organisations) for the different types of calls (standard action projects, coordinated and support actions, strategic integrated and strategic nature projects).</p>
