Kratek opisa predmeta razpisa:	<p>Specific Challenge: The Marie Skłodowska-Curie actions (MSCA) contribute to boosting jobs, growth and investment by equipping researchers with the new knowledge, skills and international and inter-sectorial exposure to fill the top positions of tomorrow and solve current and future societal challenges. They are based on the principle of mobility, and researchers can receive funding on the condition that they move from one country to another to acquire new knowledge. The results from the first years of MSCA in Horizon 2020 also revealed the existence of a mobility gap across Europe and discrepancies between European countries in their ability to attract funding. To specifically address this gap in participation Widening Fellowships will provide an additional opportunity to researchers of any nationality to acquire and transfer new knowledge and to work on research and innovation in Widening countries.</p> <p>Scope: Support is foreseen for individual, trans-national fellowships awarded to researchers of any nationality, in Widening countries. Applications to the 2019 call for Marie Skłodowska-Curie actions Individual Fellowships (MSCA-IF), where the host organisation is located in an eligible widening country, will be automatically resubmitted to this call in case their proposal fails to reach an adequate place in the ranking to be funded in the regular MSCA-IF call[1]. Applicants who do not wish to be considered for this funding opportunity may opt out during the application stage.</p> <p>The following "Types of Action" under MSCA-IF are eligible for resubmission: CAR – Career Restart panel, RI – Reintegration panel, SE - Society and Enterprise panel, Standard EF.</p>

Kratek predmeta razpisa:	<p>The aim of this action is to promote and teach Science, Engineering, Technology and Maths subjects (STEM) to girls in attractive and engaging ways, with a view to addressing the ongoing skills gap in the STEM sectors within the EU and especially the shortfall of women & increasing STEM drop-out rates of girls.</p> <p>The underlying rationale is also to empower girls to learn and encourage them to become leaders in tech.</p> <p>This aim is going to be achieved through a two-fold action.</p> <p>Firstly, a network of schools, universities, high education institutions and companies will be set up. It will serve as a platform to support the advancement of girls in STEM education and careers, to exchange best practices and to raise awareness of girls all over Europe concerning the full spectrum of education and training options.</p> <p>Secondly, no-cost summer camps for 13-18 year-old girls (typically 1 or 2 weeks long) will be designed to introduce middle and high school girls to a broad range of STEM subjects, in particular software engineering principles and programming languages. The experiences and insights collected in the course of the summer camps and other actions will be used by the network to provide recommendations and a set of ready-to-use guidelines available for reproduction of the events at local level.</p>	
Višina razpoložljivih sredstev:	The total budget earmarked for the co-financing of projects under this call for proposals is estimated at EUR 350.000 (three hundred thousand euros).	
Maksimalna višina sofinanciranja:	The Commission expects to fund 1 proposal. The grant will be defined by applying a maximum co-financing rate of 70 % to the eligible costs actually incurred and declared by the beneficiary.

Kratek opis predmeta razpisa:	<p>Municipalities and associations working together on a common theme in a long-term perspective may wish to develop networks of towns to make their cooperation more sustainable. Networking between municipalities on issues of common interest appears to be an important means for enabling the exchange of good practices.</p> <p>Twinning is a strong link that binds municipalities; therefore, the potential of the networks created by a series of town twinning links should be used for developing thematic and long-lasting cooperation between towns. The European Commission supports the development of such networks, which are important for ensuring structured, intense and multifaceted cooperation, therefore contributing to maximising the impact of the Programme.</p> <p>Networks of Towns are expected to:</p> <ul style="list-style-type: none"> - Integrate a range of activities around the subject(s) of common interest to be addressed in the context of the Programme's objectives or multiannual priorities; - Have defined target groups for which the selected themes are particularly relevant and involve community members active in the subject area (i.e. experts, local associations, citizens and citizens' groups directly affected by the theme, etc.); - Mobilise citizens across the Europe: a project should involve a minimum of 30% of invited participants. "Invited participants" are international participants sent by the eligible partners¹⁰. - Serve as a basis for future initiatives and actions between the towns involved, on the issues addressed or possibly on further issues of common interest.
