Kratek opis predmeta razpisa:	<p>Specific objective: to promote equality between women and men and to advance gender mainstreaming.</p> <p>The restricted call for proposals will focus on the gender gaps over the life-cycle, looking at work-life balance for women and men, including through a better sharing of care. The aim is to support Member States in raising awareness and tackling gender stereotypes with regard to roles in work and in private life, and in particular with regard to reconciliation issues (including the promotion of the uptake of family-related leaves by men), taking into account national specificities, complemented by EU broad common messages.</p> <p>In this respect, the call for proposals aims to support measures which will not only have consequences on the short term with regard to better work life balance for all workers, but would also allow more women to (re)enter the labour market and tackle the gender pay and pensions gaps. Ultimately it aims at supporting men and women to make informed choices throughout their life and to promote good practices in companies. At aggregate level, better work-life balance helps men and women to be able to work and continue to work in combination with their private care responsibilities. More equal economic independence at all ages means higher employment rates for men and women and a more sustainable and potentially longer working life for all.</p>	
Višina razpoložljivih sredstev:	3.000.000 EUR	
Maksimalna višina sofinanciranja:	The EU grant applied for cannot be lower than 100.000 EUR. Maximum possible rate of co-financing of the eligible costs 80%.
