Kratek opisa predmeta razpisa:	<p>This measure aims at supporting projects promoted by transnational partnerships and networks directly involving citizens. Those projects gather citizens from different horizons, in activities directly linked to Union policies, with a view to give them an opportunity to actively participate in the Union policy-making process in areas related to the objectives of the Programme. As a reminder, this can be achieved at all stages, and with all institutional interlocutors, and includes notably: agenda-setting activities, advocating during the preparation phase and negotiation of policy proposals, providing feed-back on relevant initiatives that are implemented. To that end, those projects will invite citizens to act together or debate on the multiannual priority themes of the Programme at local and European level.</p> <p>The project should consist in stimulating and organising reflection, debates or other activities related to the multiannual priority themes of the Programme and propose practical solutions that can be found through cooperation or coordination at European level, and ensure a concrete link with the policy making process indicated above. Projects should actively involve a large number of citizens in the implementation and aim at setting the basis for, or encouraging the development of, long-lasting networking between many organisations active in the field.</p> <p>This measure supports projects implemented by transnational partnerships promoting opportunities for solidarity, societal engagement and volunteering at Union level.</p> <p>A Civil Society Project must include at least two of the following types of activities:</p> <ul style="list-style-type: none"> Promotion of societal engagement and solidarity: activities promoting debate/campaigns/actions on themes of common interest in the framework of the rights and responsibilities of the Union citizens and making the link to the European political agenda and policy making process. Gathering of opinions: activities aiming at gathering the individual opinions of the citizens favouring a bottom up approach (including the use of social networks, webinars, etc.) and media literacy. Volunteering: activities promoting solidarity among Union citizens and beyond.

Kratek opis predmeta razpisa:	<p>Municipalities and associations working together on a common theme in a long-term perspective may wish to develop networks of towns to make their cooperation more sustainable. Networking between municipalities on issues of common interest appears to be an important means for enabling the exchange of good practices.</p> <p>Twinning is a strong link that binds municipalities; therefore, the potential of the networks created by a series of town twinning links should be used for developing thematic and long-lasting cooperation between towns. The European Commission supports the development of such networks, which are important for ensuring structured, intense and multifaceted cooperation, therefore contributing to maximising the impact of the Programme.</p> <p>Networks of Towns are expected to:</p> <ul style="list-style-type: none"> Integrate a range of activities around the subject(s) of common interest to be addressed in the context of the Programme's objectives or multiannual priorities; Have defined target groups for which the selected themes are particularly relevant and involve community members active in the subject area (i.e. experts, local associations, citizens and citizens' groups directly affected by the theme, etc.); Mobilise citizens across the Europe: a project should involve a minimum of 30% of invited participants. "Invited participants" are international participants sent by the eligible partners. At least 30% of the projects' participants travel from eligible Programme countries to the country/ies hosting Networks of Towns events. It is possible to have participants to events from countries other than those where project partners are established, provided that they come from eligible countries within the framework of the Europe for Citizens Programme. Serve as a basis for future initiatives and actions between the towns involved, on the issues addressed or possibly on further issues of common interest.
