1.1 Employment and Social Innovation Programme (2014-2020) – EaSI programme - Transaction cost support for social enterprise finance

| Izdajatelj: | European Commission |
| Status: aktiven | Datum objave: 17.5.2017 | Rok prijave: |
| Vir objave: | 1. 2nd deadline: 1.12.2017 |
| Kratki opis predmeta razpisa: | 2. 3rd deadline: 15.4.2018 |

The objective of the call is to test a transaction cost support scheme in the form of a grant to be combined with financial instruments as a means to address the mismatch of needed and sustainable ticket sizes. More particularly, it aims at catalysing smaller risk-capital investments of below 500,000 EUR that otherwise would not happen.

The grant is aimed at financial intermediaries that undertake long term risk capital investments in ticket sizes of less than 500,000 EUR in the form of equity, quasi-equity, or hybrid financing (see annex II for a glossary) to social enterprises in the EaSI Participating Countries. It will serve to lower the transaction costs for these small investment tickets and thus help overcome a market failure in the social enterprise finance market.

Activities related to the preparation, conclusion and follow-up of long term risk capital investments into social enterprises may be funded under this call for proposals. This may include activities such as:

- travelling to meet (potential) investees;
- screening and processing investment applications;
- preparing legal documents, potentially with a lawyers' advice;
- carrying out the due diligence, including assessing (potential) impact;
- providing investment readiness, scaling readiness or business restructuring support;
- bringing in co-investors;
- managing the investments and monitoring social impact.

Višina razpoložljivih sredstev: 3 mio EUR

Maksimalna višina sofinanciranja: The EU grant requested should indicatively be between 300,000 and 1 million EUR. Under this call for proposals, the EU grant may not exceed 80 % of the total eligible costs of the action.

Ciljne skupine oz. potencialni upravičenci: To be eligible, the applicant (sole or lead and co-applicants) must be:

1. An investment fund, a Fund-of-Funds, a special purpose vehicle, in any form, established or to be established

   - For the avoidance of doubt, the (future) manager must already be an established and registered legal entity at the time of the submission of the application.

<td>Europe urgently needs more innovators to stay competitive in the coming decades and to spur economic growth. The large number of well-educated women who, for various reasons, including lack of awareness, do not consider entrepreneurship as an option, represents a tremendous untapped pool of innovation. Awards have a strong potential to drive innovation through the recognition of achievements and the promotion of role models. Therefore, the European Commission created in 2011 a Prize for Women Innovators to increase public awareness of this issue and to encourage women to exploit the commercial and business opportunities and become entrepreneurs. After the success of the forerunners of the contest in 2011, 2014, 2016 and 2017 the Commission intends to continue its drive to spotlight women innovators and entrepreneurs who have brought outstanding innovations to the market. The EC wants to highlight the outstanding achievements of women innovators who have (co-) founded a successful company and brought an innovation to market and benefitted from Research and Innovation funding from the public or private sector. The Commission will award up to three &quot;EU Prize for Women Innovators&quot; and one &quot;Rising Innovator Award&quot; (female innovators - aged 30 years or under - at the start of their careers) following a European-wide contest. ITN will raise excellence and structure research and doctoral training in Europe, extending the traditional academic research training setting, incorporating elements of Open Science and equipping researchers with the right combination of research-related and transferable competences. It will provide enhanced career perspectives in both the academic and non-academic sectors through international, interdisciplinary and intersectoral mobility combined with an innovation-oriented mind-set.

ITN supports competitively selected joint research training and/or doctoral programmes, implemented by partnerships of universities, research institutions, research infrastructures, businesses, SMEs, and other socio-economic actors from different countries across Europe and beyond.

Partnerships take the form of collaborative European Training Networks (ETN), European Industrial Doctorates (EID) or European Joint Doctorates (EJD).
