Healthy waters are the stories of Slovenian natural spas. Stories of beneficial thermal waters and other natural healing resources used for health and well-being in Slovenia for centuries. And of people that have always been inspired by them for healthy and good living.

They fascinated the antique seekers of health. The history of many Slovenian health resorts and spas dates back to the Romans, medieval gentry, alchemists and the blossoming of Europe’s courts. The mythological horse Pegasus discovered the water of miraculous powers in one part of Slovenia, a mysterious creature brought special water to lumberjacks in another, and ladies were rejuvenated with spring water in another part. Somewhere the path of mineral water is carved out by dwarfs working hard underground, and in another place the springs were left behind by the Pannonian Sea millions of years ago.

Water, climate and other natural healing resources are the core of the 14 certified Slovenian natural spas. In very diverse regions of Slovenia, natural resources, centuries-old traditions of treatment and the latest medical approaches are combined. Relaxation in attractive thermal pool complexes and top offers of pampering and activities for an integrated approach to the balance between body and mind are complemented with diverse activities in green nature.

Let the healthy waters of the Slovenian natural spas also be the story of care for your health and well-being. A story of love for nature, yourself and those dear to you.

10 REASONS TO VISIT SLOVENIAN NATURAL SPAS

1. HEALTH FROM NATURE
Renowned and proven effective, natural healing resources. Thermal and mineral waters, mineral drinking waters, mineral peloids, peat, thalassotherapy with sea water, brine and healing salina mud, and a beneficial climate with aerosols.

2. CENTURIES OF TRADITION
An over 600 year-old tradition extolled by world famous names and abided by many kings and nobility. Refined with a modern offer.

3. WORLD FAMOUS DRINKING WATERS
The excellence of Slovenian mineral waters was brought to the world by its unique healing waters: Radenska and Do-nat Mg.

4. DIVERSE SPAS WHERE FOUR WORLDS MEET
Thermal springs babble at the conjunction of the Alps and Mediterranean, the Pannonian Plain and Karst. Slovenia is the only country in Europe that combines such diverse regions within easily manageable distances.

5. IN ALL SEASONS
Health resorts and spas are excellent centres for thermal breaks with plenty of things to do. Each season offers pleasant adventures in addition to the thermal offer.

6. FOR ALL AGES
Lively spa tourism centres or peaceful health resorts deep in nature and withdrawn from the world, with intimate programmes, are available. For the entire family or couples. Or solo. Tailored to the needs of the modern seeker of well-being.

7. DIVERSE CHOICE OF ACCOMMODATION
From luxurious five-star hotels, friendly smaller hotels, apartment settlements, villas and campsites to very special forms: in a wine barrel, Pirates Bay, Indian village, etc.

8. CLOSE, BUT FAR ENOUGH AWAY
Slovenia has excellent connections with Europe and the rest of the world. Everything is close in Slovenia, but the natural spas are far from the hustle and bustle of the city life.

14 NATURAL SPAS, 14 UNIQUE STORIES
Slovenia’s geographical diversity is intertwined with exceptional natural luxuries and local particularities. By the sea, in wine-growing hills, embraced by the forest, along clean rivers, in the medium mountain region, with a view over Karavanke. Each spa has its own story! Which will your favourite be?

COMPLETED OFFER FOR INTEGRATED VIEW ON HEALTH AND WELL-BEING
And the tenth reason? Why Slovenian natural spas? Because they have, based on tradition and nature, developed an attractive offer of top medical services, efficient prevention programmes, excellent wellness/spa centres, diverse water areas for fun, combined with an abundance of adventures for pleasant thermal breaks, including selfness activities for a balanced and full life.
BECAUSE HEALTH IS THE MOST IMPORTANT THING

For centuries, care for health has been the mission of Slovenian natural spas. Here, the proven efficiency of the renowned natural healing resources is combined with the work of well-tuned and devoted qualified teams of doctors, physiotherapists and other health professionals. Health requires an integrated approach.

- Top medical centres with the latest diagnostic and other equipment operate in certified spas, in which renowned specialists provide top diagnostics, treatment and rehabilitation.
- Health integrity: prevention, diagnostics, treatment, rehabilitation and care.
- Indications: cardiovascular diseases, rheumatic diseases, locomotor system injuries, the digestive system, metabolism, kidney and urinary tract diseases, gynaecological diseases, neurological and skin diseases, neurotic disorders, respiratory system diseases.
- Pertaining to indications, top specialist outpatient clinics and counselling services have developed, while certain spas have centres for specific diseases and conditions, for example a centre for cardiovascular diseases, a holistic menopause and andropause centre, multiple sclerosis centre, urinary incontinence centre, post-breast reconstruction rehabilitation centre, and many more.
- The specialists combine their professional knowledge with balneotherapy and other complementary sciences for more efficient treatment and rehabilitation.
Top prevention health programmes for everyone who wishes to prevent chronic diseases with early diagnosis and thus provide for their health.

Medical wellness programmes are based on an individual consultation with a selected specialist.

Medical and therapeutic massages, special massages, baths, wraps and scrubs are, along with the use of renowned natural resources, sports exercise and relaxation activities in nature, an exceptional natural way to preserve health. Carefully supervised by highly qualified medical teams.

Comprehensive programmes for a healthy body and soul and special programmes, such as weight-loss schools, anti-stress therapies, anti-aging and programmes for managers, future mothers, healthy spine and others are based on modern medical findings.

Health methods are complemented with alternative approaches, since health is a holistic concept and vital food is an important factor.

To cope with everyday challenges, the Slovenian natural spas developed numerous efficient programmes for the prevention of civilisation diseases following the findings of modern medical science in individual indication fields while using natural healing resources. The core is a holistic approach to guests that revives some of the forgotten forms of treatment and observes the experiences of traditional medicine.
Water Fun. Individual Slovenian thermal centres have over 10,000 m² of diverse water areas with different themed water parks and the wildest slides available. Indoor and outdoor pools of all types offer beneficial thermal waters at different temperatures. You can always find a corner of your own.

Wellness. Modern wellness centres pamper you with a remarkable offer of care, relaxation and therapeutic programmes, as well as beauty and well-being services. Often, special local stories are emphasised. Besides swimming, aqua aerobics and other exercise, the relaxation and massage effects of thermal water are important.

For Children. Numerous Slovenian spas offer family programmes. Special pools and theme parks, playrooms, activities, fun and diverse adventures for children. Especially in summer, the children’s corners in nature become lively – with tents and tepees, bungalows on water, treasures hidden in the surroundings and other surprises.

Active. Slovenia is criss-crossed with footpaths and hiking and biking trails in the vicinity of spas. The centres and their surroundings offer golf, tennis, different ball games, horse-back riding and winter sports. Fun adventures, activities and trips are available everywhere.

Special Occasions. Many Slovenian spas are also an excellent choice for special events – from business meetings to weddings.
In Slovenian natural spas, selfness serves the mind and spirit, not just relaxation. The establishment of spiritual and mental health together with physical vitality charges us with positive energy. These are the findings and wisdom that guests take home with them.

AN INTEGRATED APPROACH TO A HEALTHY LIFE ATTITUDE

- Quiet, unique locations and a relaxing natural environment, refined with the power of natural healing resources.
- Physical activities and relaxation, and so much more! The spas have developed activities and therapies that show you the way to your inner «self» and methods for quality co-existence with others and with nature, stress management and successful coping with the challenges of modern life. Detoxification, energy medicine, learning about self-healing techniques and better self-satisfaction.
- An integrated approach to a healthy life attitude based on a combination of modern and ancient techniques of relaxation, medication and medico-wellness.
- Energy morning exercises, breathing exercises, meditation, voice therapy, barefoot walking, baths in the forest, house rituals, etc.
- Selection of healthy dishes from local farms for food and a life filled with good energy.
ČATEŽ THERMAL SPA

A popular thermal oasis and the most luxurious pools in Slovenia.

THERMAL CAPITAL 365 DAYS A YEAR

Čatež Thermal Spa is the largest thermal destination and the second largest tourist centre in Slovenia. Its offer is based on healing springs deemed the warmest for miles around as early as the beginning of the 19th century. It is a true treasury of health offering endless possibilities for relaxation, recuperation and water fun. Plenty of reasons for all ages to visit in any season.

1. Summer and Winter Thermal Rivieras offer over 12,000 m² of water attractions and pools in a variety of forms.
2. A top health centre that draws on the healing power of nature refined with an excellent medical team.
3. Just a stone’s throw away, medieval Mokrice Castle has been transformed into a high-class hotel with a golf course below its walls proudly rising above the centuries-old forest of Gorjanci.
4. Halls and fields for a full range of sports activities, whereby Čatež Thermal Spa is also an attractive destination for business meetings.
5. Pirates Bay with floating bungalows and an Indian village with tepees for a different type of stay.

Thermal water of Čatež
The springs were discovered at the confluence of the Sava and Krka rivers over 200 years ago. It was soon established that the water was beneficial for both body and soul. Today it helps with injuries of the locomotor system and with gynaecological, inflammatory-rheumatic, muscle and neurological diseases.

Laško thermal water

The Bion Institute’s research showed that Laško thermal water has a high-quality bio-field, while its healing properties have been proven over decades of balneotherapy. Due to its positive and stimulating characteristics, it is also recommended for drinking.

Laško thermal water reflects strong life energy. You can get it in a special bottle as a gift or souvenir.

The restorative properties of Laško springs were known by Roman legionaries. In the Middle Ages, the missionaries returned here, where the Emperor Franz Joseph established a cosmopolitan resort in the 19th century. Today Thermana Laško is famous as a top medical centre of highly qualified experts that helps you restore or strengthen your health. At the confluence of the Savinja and Rečica rivers, an over 160 year-old tradition of the beneficial Laško water is also reflected in an excellent offer for well-being.

Thermal water of Olimia

The bio-field of Olimia’s water is stable and invigorating, with positive effects on people. Contained silicon is important for the health of all of the connective tissues, bones and cartilage, while the low content of minerals encourages the cleansing of the body and strengthens its defence mechanism.

BACK TO SELF

Special water rises from the depths of the heart of Kozjansko. It touches the body from inside and outside. Its healing power has long been known. Olimia Thermal Spa, which fascinates with its architectural perfection, integration in green surroundings and colourful offer for health, well-being and a balanced life, is based on nature. There is a world. And another one. Olimia Thermal Spa for self-awakening.

NATURAL HEALING RESOURCES

1. Olimia Thermal Spa is Slovenia’s No 1 destination for selfness.
2. Wellness Orhidelia continues to be selected as “the best spa centre in Slovenia”. It awakens your love for body and soul.
3. Specialising in spine rehabilitation and neck and lower back pain relief.
4. Modern architecture in harmony with nature.
5. A destination complemented with plenty of attractive adventures.
SELFNESS

- Numerous opportunities to learn the self-healing techniques of energy medicine and the skills to cope with everyday challenges: energy morning exercise, a house ritual for better concentration, breathing exercises, meditation with visualisation, barefoot walking, baths in the forest, etc.
- Get enthused with healthy physical activities and stimulate your concentration, also in the selection of vital dishes which come mainly from local farms.
- Every third Friday of the month is a selfness day. Enjoy it.

THERMAL BREAK

WELLNESS

- Wellness Orhidelia is the most prestigious part of the spa. It will awaken your love for body and soul. You will learn that Olimia’s water is not composed only of the infinite love of Mother Nature, but also of deep silence. The outdoor and indoor pools, Sauna World and thematic resting areas are intertwined with architectural poetry.
- You can choose the interesting Termalija Wellness Centre composed of the Pool Oasis, the biggest world of saunas in Slovenia and the Spa & Beauty Centre with unique treatments.
- The more intimate Spa Armonia is particularly famous for its Armonia, Olimia and Vitae massages and pampering for couples.

WATER FUN

- In summer, the outdoor Aqualuna Thermal Park is exhilarating.
- Slides and chutes, a wave pool and the King Kobra slide, the wildest in Slovenia, await the most daring among you.
- For the young ones, there are the King Kobra mini club providing diverse activities, and numerous children’s pools with the Aquajungle and Aquasafari containing life-size animals.

HEALTH

- Olimia Health Centre is based on modern programmes that strengthen your health and well-being. After a careful examination and diagnostics, an individual therapy and dietary programme is prepared by a doctor for each guest.
- The spa excels in the rehabilitation of orthopaedic and trauma patients, rheumatic diseases and post-operation rehabilitation.
- The spa specialises in spine rehabilitation and neck and lower back pain relief. Therapeutic techniques combined with Olimia’s approach are directed towards the correction of wrong movement patterns and muscle imbalances resulting from a sedentary lifestyle.

DEFENSE

- Preventive programmes strengthen your vitality and remedy the consequences of a poor lifestyle.
- In diagnostic and therapeutic procedures, the spa has joined the tested holistic approaches and combined them with the skills of modern manual medicine, the tradition of eastern treatment and the latest devices that stimulate the self-restoration processes of the body in a natural way.

STORIES OF SLOVENIA

STORIES OF SLOVENIA INCLUDE STORIES ABOUT WATERS.

Pick your story. Find your love in Slovenia.

In spas. Take care of yourself. Let the water and other natural healing resources of 14 Slovenian natural spas help you.

In the Karst region. Go deep to the very heart. Over 10,000 Karst caves lie under the surface of Slovenia.

In the Mediterranean. Because love is salty. The most northern salt pans in the Mediterranean.

In nature. Let a tree hug you. Slovenia is among the most forested and water-rich countries in Europe.

In Ljubljana. Say loved. In the capital, in the heart of Slovenia, even the dragons are in love.

At a table. Take a seat, it is good! Slovenia is ranked among the three to five best wine-growing locations in the world.

Between people. You dare to do more in the name of love. Slovenia is at the very top of the world in terms of the number of important sporting medals per capita.

In the Alps. Visit the Goldhorn. The treasures of the Alps in Triglav National Park are guarded by fairy-tale creatures.

In nature. Let a tree hug you. Slovenia is among the most forested and water-rich countries in Europe.
